BUSINESS TERMS

Prices—All prices in this catalog are quoted at the each price, ten price and one hundred price. The each price applies from one to five of a kind; the ten price from six to forty-nine of a kind; the hundred price from fifty to one hundred of a kind, and the thousand price from two hundred fifty up. When an each or ten price is given only, we do not allow a lower quantity price. Stock specially selected by customers in the nursery will be charged according to its value, irrespective of catalog prices.

Warranty—We warrant our stock to be true to variety named, and will replace any that may prove otherwise or refund the original price, but beyond that, we assume no responsibility. As the stock we handle is perishable, it is impossible to guarantee its life after it leaves our hands. Insurance, however, can be had provided the same is obtained from our office in writing and at an increase over prices quoted in this catalog.

Packing and Delivery—Most of our stock is delivered by our own trucks, and all prices include free delivery within a radius of twenty miles of our office. We limit, however, this free delivery radius to orders amounting to less than \$20.00, unless the destination is at a point reached by our regular delivery service. If beyond this area the stock is either shipped by express, parcel post or freight, unless it is requested to ship by truck, and then we charge extra for this service. If goods have to travel by express, parcel post or freight, the cost of packing and transportation charges are borne by the customer.

Claims—As all our stock is perishable, it is very essential that if there is any complaint that the same be placed with us as soon as the stock is received, either when delivery is made by our truck or by a transportation company. Complaints not made the day following delivery will not be considered.

Terms—Cash or satisfactory trade references must accompany all orders from purchasers unknown to us. Where credit has been allowed, bills are payable 30 days from date of shipment. If unpaid, interest will be charged at $\frac{1}{2}$ per cent per month.

Telephones: Rutherford 90-91.

The prices quoted cancel all previous offers.

BIOTA ORIENTALIS AUREA

The smaller size is used quite often in place of Boxwood where a bright golden effect is desired. In the other sizes these are usually used as tub plants for the front of hotels, homes and apartment houses.

Trees, Shrubs and Vines

When age of shrub is not given, plants are all extra heavy, 4-5 year old stock.

HOW TO REACH OUR NURSERIES

Our Nurseries are located within 8 miles from New York City. Buses start from Astor and Waldorf Astoria Hotel (Bus Terminals for Passaic and Paterson) Leave the bus at Paterson Avenue and Hackensack Street, East Rutherford, take bus or trolley passing our nurseries on Paterson Avenue. Rutherford is the first and Carlton Hill the second station on the main line of the Erie Railroad. Take the Hudson Tunnel at 33rd Street or at Cortland Street Terminal—trains connect with the Erie Railroad at Jersey City. Our office is only a five minute walk from Carlton Hill Station.

You will notice on the map that our nursery is located on Paterson Avenue, between Passaic and East Rutherford, and if this is borne in mind, can easily be found by looking for a stack with the name "ROEHR'S".
